Social Media Tip Sheet

Social Media Tenets Across Channels

- **Timeliness and relevance rule the day.** Your content must carry meaning and provide value beyond that which benefits your brand.
- **Make it visual**. Posts with images, videos and gifs perform 2x better than text-only posts. Always consider how your visuals will appear on mobile.
- **Content should be short and conversational.** Otherwise, it doesn't belong on social.
- **Paid social is essential.** Brands cannot compete for visibility without it. Plus, when you deploy paid social, you can gain a wealth of audience insights from the platform's targeting analytics.
- **Set your measurement goals** from the beginning. Define metrics for measuring your objective.
- **Reevaluate best practices** on a regular basis as the platforms evolve.

Twitter Best Practices

- Use conversational copy (within 140 characters).
- Tag other accounts in your copy when appropriate by using @USERNAME
- Use hashtags thoughtfully—no more than 2 per post.
- Include a call-to-action if applicable, e.g., "read more" or "learn more."
- Link to quality long-form content—post URLs should lead users to credible sources.
- Post 1-2x per day.

Facebook Best Practices

- Use concise, conversational copy.
- Tag media outlets, partners, and individuals when sharing third-party content using @USERNAME
- Attract engagement with messaging that is casual in nature and to the point.
- Prioritize content that illustrates key elements of company culture, mission, and point of view.
- Prioritize videos, which receive higher engagement rates (should be no longer than 2 minutes).
- When sharing images with text copy, use concise wording and a legible font.
- Post 2-3x per week, limit sharing to 1 post per day.

Instagram Best Practices

- Share photos and videos that highlight a visual aspect of your business.
- Use Instagram Stories to document a process or event – limit story posts to 10 per day.
- Write captions that are concise and conversational.
- Tag other accounts in your copy and in your photo.
- Use hashtags thoughtfully – limit to 1-5 per post.
- Post 3-4x per week.

LinkedIn Best Practices

- Use professional, succinct copy.
- Messaging should provide a point of view or pose a question to users.
- Reference sources' credentials.
- Prioritize content that presents new ideas, facts and statistics related to trends, and examples that further prove your POV.
- Post 4-5x per week, limit sharing to 1 post per day.
